Names of group members:

Title of topic:

*What* did the scientists discover or invent?

*Why* did the scientists want to find out about this?

*Who paid for* the science to be done?

Who did the science?

*When* did they do the science?

Scientists... make observations or do experiments to collect data... record data... analyse and evaluate evidence... explain things that happen... develop and test theories... communicate with other scientists... consider future research needs.

*Which* of these did the scientists do? *How*?

What do you think the *impact* of the discovery or invention has been or will be on:

- People's lives?
- Future science?
